_____	_____

Project Goals: What do you want to do in the project? Is there a new skill you want to learn?

Goals should be SMART (Specific, Measurable, Achievable, Relevant, Timely)

Examples:

Clothing - I want to learn to make pleats. This year I will sew a garment with pleats.

Sheep - I want to be a better showman. I will work with my 4-H animal ___ minutes a day on ___ days a week.

Woodworking - I want to sell the wooden tables that I make. I will find a location to sell them and keep track of my costs. My goal is to sell two tables this year and to make a profit.

Foods - I want to learn about foods from other countries. This year I will learn about France and make at least three French recipes. I will exhibit in the Foods Review.

“If you fail to plan, you are planning to fail!” – Benjamin Franklin

What are you planning to do in 4-H this year?

Goals: Write at least one goal for each 4-H project.

Tell your story:

Add additional pages with photos or a narrative report telling about your project activities.

Here are a few questions to get you started: *What did you do in your 4-H project? What happened? Were you able to accomplish your goals? What did you learn? What would you do differently next time?*
