

# Tar Spot and White Mold

## Update Meetings:

### What we learned in 2021 to prepare for 2022

Two, 2-hour meetings will be hosted by University of Wisconsin-Madison, Division of Extension in conjunction with the University of Wisconsin-Madison, Nutrient and Pest Management Program. These meetings will cover information and data from recent tar spot of corn and white mold of soybean epidemics, with thoughts on how to prepare for 2022. The presentations will be delivered by Dr. Damon Smith, Extension Plant Pathologist. The first hour we will discuss the tar spot situation in Wisconsin, while the second hour will include discussion of the white mold situation in the state.

**Choose the location you wish to attend and follow the registration instructions below to pre-register.**
